Models

- ▲ Fan coil unit
- ▲ ModBus/RS485
- ▲ Infrared control for splits
- ▲ Daikin VRV
- ▲ York/Trane
- ▲ Ethernet/PoE

Ondur from AuVerte represents a completely new approach to hotel guestroom control. Sustainability benefits your property's bottom line, the environment and the hotel industry as a whole. AuVerte's low system cost, easier installation, simple maintenance and 10-year warranty mean an overall lower cost of ownership for your guestroom sustainability program. That means a faster payback and long-lasting benefits.

Ondur creates a new aesthetic standard for guestroom thermostats. It features an attractive, ultra-thin 6 mm profile in British standard format. Combined with the choice of 17 brushed aluminum frame colors, Ondur can complement any hotel décor.

Supporting IPv6 protocols, the Ondur thermostat is a true IoT device.
